Adele: Beloved Superstar

Adele's artistry has built a global fanbase that's second to none

730,000 tickets sold for 10 concerts in Munich, Germany, a **world record** for outdoor concert residency attendance

Her album 21 set the **longest charting record** ever, reaching 608 weeks on Billboard's Top 200

120 million albums sold worldwide

16 Grammy awards, including two for Album of the Year

An Oscar for Best Song - "Skyfall"

Emmy for Outstanding Variety Special, "One Night Only with Adele"

Made Billboard's Top 10 list of **Greatest Pop Stars of the 21st Century**

Adele is clearly an in-demand and prolific artist, but it's nearly impossible to see her live...

She rarely tours, and when she does she often plays exclusive venues with ticket prices to match, making it difficult for the average fan to be able to see her perform live.

In Fall 2024, Adele announced an indefinite hiatus from performing after the end of her 2-year Las Vegas residency at Caesar's Palace.

So how are her loyal fans supposed to get their fix of Adele's incredible music?

Testimonials

'Your concert tonight was amazing. I want to thank Sarah for such an amazing time! I went to Weekends with Adele twice and you guys are so spot on. It brought me back to her concert and I'll definitely be at your next show! Thank you again for such a memorable experience.'

Konnor N. / Irvine CA

"Not being able to see the real Adele, you made my life dreams come true! It was the best night of my life and an exhilarating experience that I will remember for a lifetime."

Taylor M. / Welch, MN

'It was a true quality tribute concert. She mastered the style of Adele in her voice, her resonance, her scratchy, husky and slightly rough sound which is very difficult to produce. The instrument players are superb, especially the pianist. I like how the singer interacted with the audience with humorous questions that demonstrated her deep knowledge of Adele's artistic history and this performer's confidence. I feel sorry for those who missed such quality concert. I am so glad I was there and had so much fun!'

Anna S. / Laguna Woods, CA

'I've seen your show twice and you have the most beautiful voice. Listening to you hit the notes gives me goosebumps. We got together with a group of girlfriends afterwards and raved about the show. Everyone wants to see you. Always Adele is a must see!'

Cindy B. / Irvine, CA
